CONTENTS

PART 1. FEBRUARY

PAGE

JACKSON, W. D., and BARBER, H. N. (Tasmania). Patterns of chromosome breakage after irradiation and ageing 1

HARLAND, S. C., and JACKSON, ANGELA R. H. (Manchester). Advantage of the white eye mutant of *Drosophila melanogaster* over the wild type in an artificial environment 27

LEVENE, H., and DOBZHANSKY, TH. (New York). New evidence of heterosis in naturally occurring inversion heterozygotes in *Drosophila pseudoobscura* . 37

KETTLEWELL, H. B. D. (Oxford). A survey of the frequencies of *Biston betularia* (L.) (Lep.) and its melanic forms in Great Britain 51

GOODWINS, I. R. (Cambridge). A further case of dominance interaction in *Mus musculus* 73

PARSONS, P. A. (Cambridge). A balanced four-point linkage experiment for linkage group XIII of the house mouse 77

GALE, J. S. (Cambridge). Uncle-niece inbreeding for autosomal genes . 97

REES, H., and THOMPSON, J. B. (Birmingham). Genotypic control of chromosome behaviour in rye. V. The distribution pattern of chiasmata between pollen mother cells 101

ROWLANDS, D. G. (Aberystwyth). The nature of the breeding system in the field bean (*V. faba* L.) and its relationship to breeding for yield . . 113

LAWRENCE, C. W. (Birmingham). Genotypic control of chromosome behaviour in rye. VI. Selection for disjunction frequency 127

COMMENT AND REVIEWS :

YATES, F. Comments on D. V. Lindley's review of Sir R. A. Fisher's "Statistical Methods and Scientific Inference" 133

OPARIN, A. I. The Origin of Life on the Earth 136

Wageningen. Conference on Chromosomes 137

BATES, M., and HUMPHREY, P. S. The Darwin Reader 139

SHORT REVIEWS 139

GENETICAL SOCIETY OF GREAT BRITAIN : Abstracts of Papers . . . 141

PART 2. MAY

KIMURA, M. (Mishima-shi). On the change of population fitness by natural selection 145

DADAY, H. (Canberra). Gene frequencies in wild populations of *Trifolium repens* L. III. World distribution 169

PAGE

JOHN, B., and LEWIS, K. R. (Cardiff and Oxford). Studies on *Periplaneta americana*. III. Selection for heterozygosity 185

MOFFETT, A. A., and NIXON, KATHLEEN (Pietermaritzburg). Genetical studies in acacias. II. Leaf characters in hybrid wattles 199

BATEMAN, A. J. (Manchester). Mutagenic sensitivity of maturing germ cells in the male mouse 213

LEWIS, D., and CROWE, LESLIE K. (Bayfordbury). Unilateral interspecific incompatibility in flowering plants 233

SRB, A. M. (Ithaca). Recurrent changes in red yeast dependent on intra-colony selection 257

REVIEWS :

CARTER, G. S. A hundred years of evolution 271

CANNON, H. G. The evolution of living things 271

PART 3. AUGUST

HAWTHORNE, D. C. (Seattle). Alpha-methyl-glucoside fermentation . . 273

TEBB, G. (Berkeley and Edinburgh). Intra-generation inbreeding effects in a poultry flock selected for egg production 285

RILEY, R., and CHAPMAN, V. (Cambridge). The production and phenotypes of wheat-rye chromosome addition lines 301

PATEMAN, J. A., and FINCHAM, J. R. S. (Sheffield and Leicester). Gene-enzyme relationships at the *am* locus in *Neurospora crassa* 317

LAWRENCE, W. J. C. (Bayfordbury). Studies on *Streptocarpus*. V. Speciation and gene systems 333

PARSONS, P. A. (Cambridge). Additional three-point data for linkage group V of the mouse 357

BODMER, W. F. (Cambridge). Natural crossing between homostyle plants of *Primula vulgaris* 363

HAYMAN, B. I. (New Zealand). The separation of epistatic from additive and dominance variation in generation means 371

REVIEWS :

KALMUS, H. Variation and Heredity 391

BLOOMFIELD, P. Uncommon People : A Study of England's Elite . 391

WHEATON-SMITH, C. Breeding Better Cows 392

GENETICAL SOCIETY OF GREAT BRITAIN : Abstracts of Papers . . . 393

PART 4. NOVEMBER

PAGE

THODAY, J. M. (Sheffield). Homeostasis in a selection experiment . . 401

PALMER, T. P. (New Zealand). Split petals in crucifers 417

ELLIOTT, C. G. (Glasgow). Environmental effects on the distribution of chiasmata among nuclei and bivalents and correlation between bivalents . 429

GILDENHUYS, P., and BRIX, K. (Natal). Cytological abnormalities in *Pennisetum dubium* 441

WALLACE, MARGARET E. (Cambridge). New linkage and independence data for ruby and jerker in the mouse 453

DEOL, M. S., and KOCHER, W. (London). A new gene for deafness in the mouse 463

BATEMAN, A. J. (Manchester). The partition of dominant lethals in the mouse between unimplanted eggs and deciduomata 467

GILBERT, N. E. G. (Bayfordbury). Diallel cross in plant breeding . . 477

DAVIES, D. R. (Aberystwyth and Wantage). Male parthenogenesis in barley 493

JARDINE, R. (Melbourne). Animal breeding and the estimation of genetic value 499

SANGER, RUTH, and RACE, R. R. (London). The Lutheran-secretor linkage in man : support for Mohr's findings 513

REVIEWS :

BARNETT, S. A. *et al.* A century of Darwin 521

A handbook on evolution 521

SHEPPARD, P. M. Natural selection and heredity 522

HUTCHINSON, SIR JOSEPH. Genetics and the improvement of tropical crops 523

GENETICAL SOCIETY OF GREAT BRITAIN : Abstracts of Papers . . . 525

INDEX 529
